Choose "Personal" unless you're paying for a business that files a separate tax return from your personal tax return.

3

Verify Your Identity

Verify your identity by entering your name address, and filing status from the last return you filed.

Important! Be sure to put the identity of the primary taxpayer. If you filed a Married Filing Joint return, this is the first person listed.

Hint: Make sure you type your address exactly as it's listed on the tax return (street vs. St. makes a difference.)
